Right after his announcement Homie Robot and Supa Cino says what he is doing to Galar is bad but he ignores them and says taking over Galar is a good idea so they leave, Joshua's head also shrinks from the water Pizza Mascot made which also makes him dumber. Hsytmags returns to FM-UV-32 and sees Tarken (who will be a Bunination general like in timeline 1) who says that he is mad at Hsytmags for what he did (About what he did to Galar not the Pink Water) and say he is leaving the Bunination, most of the soldiers agree to leave with him, Hsyt gets mad at them and calls them all traitors and Girls Kick supporters. A few hours later BoyKickerGK reforms Girls Kick and attacks them with new soldiers and the genderbent members of La Squadron and after most of his troops die he realizes he needs more members so he recruits Johnny (Ultimate Battle Outfit, original immature kid personality) And The Noob Slayers (All Members) (By convincing them that he is a pro), Graduon, Jeffery, Vito, Kaiser, Gacha Pro, Slouzer, Red Emerald Sheep, Nathe, Phoenichu, Unlucky, Red Homie Robot, and other people.
